Hi Sara,

As we discussed just a bit ago, I have attached our latest version (#5) of draft general conformity comments related to two sections of the BLM's preliminary DEIS for the NPL project in Wyoming's UGRB 8-hour ozone nonattainment area.

It would help us much if you could give a short review to just draft comment number 1 in the document (see language as in blue) as it relates to drill rig engines. We drew upon much of the information that Region 8 provided previously to Jeremy Nichols, on his issue of permitting drill rig engines in Colorado, from our letter of June 2, 2009 (please see the attached .pdf file).

Thanks much for your help!

Tim
